Why Partners Work With Swift Runner

- **Marketplace-ready brand systems:** pages, support flows, product documents, registration pathways, and analytics tracking are built around conversion and customer trust.
- **Clear brand separation:** VALMARIS and PRESTAYA serve different categories while operating under one professional company hub.
- **Buyer-friendly support path:** customers can reach support, register products, view product guidance, and access documents from one official site.
- **Wholesale inquiry routing:** buyer requests are captured through a dedicated wholesale form and routed for follow-up.
- **Compliance-aware communication:** product language is written to support trust without relying on risky or unsupported claims.

Partner Types

| Retail / Specialty | Marketplace / E-Commerce | Strategic / Supplier |
|--|--|--|
| Specialty stores, automotive retailers, oral care retailers, local retail buyers, and boutique chains. | Amazon sellers, marketplace operators, online catalog sellers, and promotion-focused e-commerce teams. | Manufacturing, packaging, co-development, bundle, and distribution partners. |

Wholesale Inquiry Workflow

Swift Runner uses a simple qualification workflow to keep partner communication organized and channel-appropriate.

| | | |
|---|--------------------------|--|
| 1 | Inquiry submitted | Buyer completes the wholesale inquiry form and provides business details, category interest, channel type, and contact information. |
| 2 | Initial review | Swift Runner reviews company fit, marketplace channel, product interest, and estimated volume. |
| 3 | Information package | Qualified buyers receive a brand overview, line sheet, product information, and next-step questions. |
| 4 | Program discussion | Pricing, case quantities, marketplace terms, territory, and fulfillment path are discussed after qualification. |
